## Summary

From the moment I created "Hello World" in the website's dashboard with my first website, I knew I was drawn to the world of web development. Especially, Frontend Development provides an engaging challenge to continuously learn and improve my skills in creating high-quality website. What started with a simple "Hello world" has turned into a true passion and has only gotten more interesting over the years. Below you will find projects I have completed that demonstrate my skills and general background in web/frontend development.

## Experience

### Social Media Web App

This full-stack web application incorporates authentication, interaction features, friend management, and light/dark mode. It utilizes MongoDB, React, Node, Express, and MUI for a user-friendly interface.

### Workout Tracker Web App

This is a robust CRUD web application built using the MERN stack. Its primary purpose is to assist users in tracking and managing their workout routines.

### Search Behaviour Survey Web App

Using the MERN stack and Survey.js library this project is designed to collect and gain valuable insights into how users search for information online.

### Emotion In Drama Analysis Web App

The project aims to explore and analyze characters' emotions and utilizes HTML, CSS and Javascript, Bootstrap, libraries d3.js and wordcloud.js. It follows the MVC pattern for building UI and managing interactions.

### Mini Javascript Projects

Through these projects, I've improved my coding skills, gained a deeper understanding of JavaScript: DOM Manipulation, API Integration, Asynchronous events

### Sustainability App

Designed and prototyped (Figma) a mobile sustainability app "Ecomate" to boost users to make eco-friendly choices and presented UX case study in PowerPoint.

## Skills

### Languages:

- Javascript
- Java

### Additional Skills in:

- HTML/ CSS
- *Database:* MongoDB, PostgreSQL
- *Framework:* React
- UX/ UI Design

## Education

OCTOBER 2021

**Bachelor of Arts Media Informatics & Information Science | University of Regensburg | Regensburg, Germany**

**Courses taken:** Practical Computer Science • Multimedia Engineering • Modern Web Application • Web Development and Web Design • Foundations of Human-Computer-Interaction • Usability Engineering

## Languages

**Vietnamese:** Mother tongue

**German:** C1 - Certificate of the assessment examination at the Studienkolleg Sachsen

**English:** Intermediate - good working knowledge
